Author Index

Belkhatir, N., 319
Breuer, P., 73

Canfora, G., 53
Capretz, M. A. M., 1
Chung, I. S., 15
Cimitile, A., 53

Estublier, J., 319

Jarzabek, S., 287
Johnson, T., 249

Kwon, Y. R., 15

Layzell, P. J., 105
Liu, S. S., 261
Livadas, P. E., 249

Macaulay, L. A., 105
Melo, W. L., 319
Munro, M., 1, 35, 53

Nyary, E., 235

Ogando, R. M., 261

Papapanagiotakis, G., 73
Pei, G., 165

Sakthivel, S., 121
Schach, S. R., 185
Sillince, J. A. A., 145
Sneed, H. M., 235

Turver, R. J., 35

Victoria, A., 165

Ward, M. P., 197
Wilde, N., 261

Yau, S. S., 261
Younger, E. J., 197

Key Word Index

Abstract data types, 235
Adaptive software, 145

Business rules, 145

CASE, 287, 319
Control flow graph analysis, 235

Documentation, 35
Downsizing, 235

Formal methods, 197
Functional decomposition, 235

Impact analysis, 35
Individual work-methods, 165
Integer programming, 15
Inverse engineering, 197

Japan, 165

Maintenance, 145, 319
Method for software maintenance, 1
Model for software maintenance, 1

Negotiation, 145

Object finder, 261
Offloading, 235
Organizations, 145

Program comparison algorithm, 15
Program revalidation, 15
Program structure, 261
Program testing, 15
Program transformations, 197
Program understanding, 261
Programming-in-the-large, 319

Re-engineering, 235
Real-time, 197
Remodularization, 235
Replacement theory, 121
Requirements, 145
Restructuring, 261
Reusability, 287
Reverse-engineering, 197, 287
Ripple effect, 35

Software configuration management, 1
Software economics, 185
Software engineering environment, 319
Software evolution, 145
Software maintenance, 1, 15, 35, 121, 165, 185, 261
Software process, 319
Software project portfolio, 121
Software quality, 165
Software re-engineering, 287
Software redevelopment (replacement), 121
Software reuse, 165, 185
Specification, 145
Strategic business planning, 287
Structured analysis, 261
Symbolic execution, 15

Team work-methods, 165

USA, 165
